*Bringing the "next generation"
in aerosol delivery...today!*

Who we are...

Respiratory Disease Network is a group of specialty pharmacies created to better address the specific needs of people affected by CF. We are the exclusive distributor of the eFlow® electronic inhaler throughout the United States. In addition, we provide compounded medications, home infusion therapies, other medical equipment and specialty injectables.

What we do...

Respiratory Disease Network goes beyond delivering product to offer customized programs and specialized services to get the most from prescribed therapies. Our trained staff of pharmacists provide individualized instruction and counseling to improve compliance and ensure patient safety.

How to contact us...

Our customer support representatives are available to assist you 24 hours a day. Call us to find out more about how we can serve you.

eFlow®

The eFlow® is a highly efficient electronic inhaler. Silent, small and lightweight, the eFlow® utilizes a vibrating membrane technology for liquid aerosol generation. The result is a low-velocity aerosol with a precisely defined range of droplet sizes.

eFlow® = efficiency

- Combines two key nebulization principles for more efficient delivery
- Substantially decreased treatment times

eFlow® = ease of use

- Increased portability
- Reduced size & noise
